

Mini Crawlers

Used Mini Crawler Visalia - Our different Mobile Crane Operation programs are meant for experienced operators who requires certification or re-certification, and for inexperienced individuals who are looking for their first work as a crane operator. Industry demand for certified crane operators is high all around the country. Positions for crane operators are in demand because of their high rates of pay. Operators of cranes are amongst the highest paid of any heavy machine operator. Our Crane Training Schools feature training and instruction for a wide variety of mobile cranes. Course subject includes Crane Set-up, Wire Rope, Load Dynamics, Lift Planning, Load Charts, Rigging, and Signaling. The Crane Training School program is best for operators, riggers and supervisors. Course materials consist of an informative and manual hand-outs. The safety instruction manual that is illustrated consists of 100 to 250 pages, which depends on the course, of essential and helpful material. Course materials include load charts and load chart exercises for the crane with which the individual training is working. Over half of the course consists of Hands-On Safety Training. Practical training is helpful for developing and increasing personnel skills levels. Only qualified journeyman crane instructors are chosen to teach the courses. Our instructors possess many years of experience in the industry. Optional testing mechanisms are offered for all of our courses. Students would normally write tests both before and after training. A test for skills is generally administered for programs which comprise H.O.S.T. People training will be tested and graded. Certification Training Programs: Lattice Boom/Crawler Cranes; Fixed and Swing Cab Mobile Hydraulic Cranes; Rigging / Signalperson Training and Certification; Articulated Boom / Knuckleboom Cranes; In-The Seat Training and Certification & Testing. Industry standards of practice are evolving as new trade requirements emerge. There are continual updates to legislation and regulations. Enhancements in technology and equipment continue to be made. Industry data collection and analysis detect changing trends. Members maintain the advantage of managing their certifications and training programs. Mobile device alerts keep members abreast of personal and workplace safety news.
